

higher education & training

Department:
Higher Education and Training
REPUBLIC OF SOUTH AFRICA

“Revitalising and Transforming the Academic Profession” Have you considered a career as an academic? Here's your chance

The Department of Higher Education and Training is pleased to announce the implementation of Phase 2 of the SSAUF - the 'New Generation of Academics' Programme (nGAP).

Do you want to participate in a development programme that:

- enables you to immediately take up a permanent lecturer position, and earn a full lecturer salary as you study?
- enables you to study for a master's or doctorate, or to undertake post-doctoral work with substantially reduced teaching responsibilities while studying?
- enables you to develop your teaching and research ability?
- ensures that you are fully supported by a mentor for the duration of your participation in the development programme?
- provides support for an international mobility experience?

Then the nGAP is for you and you should seriously consider making an application for one or more of the positions listed alongside.

The nGAP aims to assist with staffing transformation and capacity needs at universities, and involves the establishment of **permanent academic posts**. Successful candidates will participate in a 6-year comprehensive development and induction programme, after which they will continue as regular members of the academic staff.

To be eligible for selection for an nGAP post, applicants must meet the following criteria, in addition to meeting the criteria specified by the university:

- show interest in becoming an academic
- be 40 years or younger
- show evidence of eligibility to undertake postgraduate study at master's or doctoral level

- be willing to commit to placement at the appointing university for the full 6 years of the programme.

At least 80% of the positions will be allocated to black and/or women South African citizens.

You may apply for more than one post at more than one institution.

Full details of the posts at each university are available on the university's website. To apply, visit the website of the institution and follow the instructions described in the adverts.
